Built-in Reports

Xray provides built-in reports that can be used to analyze your project in different ways, including testing progress, current requirement statuses, and so on. These reports are either accessible from the Xray Reports icon on the project left sidebar or from the standard Reports icon, which includes other reports besides Xray.

- Test Coverage Report
- Traceability Report
- Tests List Report
- Test Sets List Report
- Test Executions List Report
- Test Plans List Report
- Test Runs List Report
- Test Plans Metrics Report
