Built-in Reports

Xray provides some built-in reports that can be used to analyze your project in different ways, including testing progress, current requirement statuses, and so on.

These reports are either accessible from the Xray Reports icon on the project left sidebar or from the standard Reports icon, which includes other reports besides Xray.

- Traceability Report
- Overall Requirement Coverage Report
- Historical Requirement Coverage Report
- Test Plans Report
- Test Executions Report
- Test Runs Report
