Xray Mobile

Intro

With the Xray Mobile App, you can quickly visualize your reports, track the most important projects and perform field testing on the go.

What's new

- Visualize traceability and execution reports.
- Add evidences to your test runs using pictures, videos and audio.
- Track your favorite reports, executions or test plans.

Xray Server version 3.3.5 or above is needed to support the mobile app. Xray Cloud is not yet available for mobile.
